**expert**

*Step by step...*

*... and hand in hand we optimise your processes and working procedures. Our staff are specialists who excel themselves through their expertise and experience in their fields of work.*

*Since the foundation of the company in 1994 we have set ourselves the challenge of developing efficient and cost-effective solutions that work in real-life applications and represent the perfect combination of economic and ecological goals. We have set the benchmarks in the development of new chemicals for industrial water and waste water treatment, and continue to develop solvents and cleaning agents in line with the latest technical findings.*

*Our full service from reliable advice to efficient maintenance is greatly valued in the plant construction field and we make our knowledge available to serve our customers in the engineering and consulting area.*

*„When it comes to waste water treatment, we can depend on Färber & Schmid to provide us with top-class support and the proverbial Swiss dependability.“*

*Gerhard Scharrer, Energy/Media Supplies  
AUDI, Ingolstadt Works, Germany*

# ***innovative***

*Together...*

*... we seek out innovative solutions for your challenges. Our experts contribute their immense know-how and capacity for networked thinking to the problem-solving processes.*

*In our customer service laboratory, we constantly develop new speciality chemicals for an extensive range of applications and our practical experience finds its way into the development departments of our highly capable partners in the plant construction field.*

*Water is one of our most important resources. We do everything in our power to contribute to ecologically sound and economically attractive solutions through our work.*

*„From engineering and official approvals through plant construction to flawless overall function, Färber & Schmid accompanies us professionally and innovatively throughout.“*

*Eva Jaisli (CEO) and Max Baumann (CTO)  
PB Swiss Tool, Wasen, Switzerland*

***dependable***

*No compromises...*

*... are allowed in our activities when it comes to safety. Process procedures, environmental protection and work safety are ensured through a top-class quality management system.*

*Continuous improvement of our chemicals and waste water treatment plants is a key factor. Risks are eliminated wherever possible or minimised through optimum training in the handling of hazardous materials.*

*As a customer in any one of our various fields of work, we offer you the reassuring knowledge that you are always guaranteed the maximum possible level of security for your organisation.*

*„For many years, Färber & Schmid has been a reliable guarantor for outstanding performance and operational safety with its speciality cleaners and solvents.“*

*Heinz von Euw, Head of Environment and Safety  
Victorinox AG, Ibac, Switzerland*
