

ZetaPol

Separation- and flocculating agents

well-known and recognised

Product	Properties	Application	Delivery form
ZetaPol 1109	<ul style="list-style-type: none"> • high performance product • strong flocculation • achieves clear water phase • perfect sludge filtration • good and fast flocculation 	<ul style="list-style-type: none"> • removes turbidity • for all industrial waste water streams • achieves brilliant water phase • good sludge sedimentation 	<ul style="list-style-type: none"> • Bags with 15 kg net • Pallet with 540 kg net • BigBags with 400 kg net
ZetaPol 1125	<ul style="list-style-type: none"> • perfect sludge dewatering • small and stable flocculation • good clear water phase • improves filtration properties 	<ul style="list-style-type: none"> • removes turbidity • for all industrial waste water streams • achieves brilliant water phase • good sludge sedimentation 	<ul style="list-style-type: none"> • Bags with 10 kg net • Pallet with 500 kg net • BigBags with 400 kg net
ZetaPol 1133	<ul style="list-style-type: none"> • extremely high performing product • achieves outstanding clear water phase • perfect sludge dewatering • extremely strong splitting capabilities • good flocculation 	<ul style="list-style-type: none"> • perfect for dispersions • especially for paints/lacques • removes turbidity • good sedimentation 	<ul style="list-style-type: none"> • Bags with 15 kg net • Pallet with 540 kg net • BigBags with 400 kg net
ZetaPol HC-85	<ul style="list-style-type: none"> • interesting price-efficiency ratio • good flocculation • perfect sludge dewatering • multi purpose use 	<ul style="list-style-type: none"> • removes turbidity • for all industrial waste water streams • especially for dispersions • achieves brilliant water phase • good sludge sedimentation 	<ul style="list-style-type: none"> • Bags with 15 kg net • Pallet with 540 kg net • BigBags with 400 kg net
